## **Brief Course Description.**

**The 5k course includes 1 descent and 1 ascent with undulating pathways in between. Be prepared for a little mud here and there although it's a 50 – 50 split of bridleway and smaller pathways. You will encounter the 10k runners coming from the opposite direction but there will be plenty of passing space as long as you keep to the left. The route is a simple loop and will be clearly marked.**

**The 10k course follows much of the 5k course but in reverse. As mentioned above you will encounter the 5k runners coming the opposite way, there is plenty of room if you keep to the left. The 10k route is much more challenging with steep descents and ascents, mixed with mud to really sap that strength. The route takes a rough figure 8 shape and will finish with a stepped climb back to the White Horse car park, not for the faint hearted.**

**As with all events of this type, camaraderie is part and parcel. If you see someone injured or in any kind of trouble, take their number and alert the first marshal you come across so they can take the necessary action, and get them to safety and medical help should they need it.**
