This trial race will be hand timed and results at www.ukresults.net

This race will be held over the bridle ways, historic race course of Norton and the famous Langton Walled gallops: training ground of race horse champions.

Langton Wold Racecourse and the racing industry in Malton and Norton is strong and significant. The Langton Wold race meeting had began before 1692 – By the time of its loss to enclosure and the plough in 1862, Langton Wold had come to be regarded as one of the finest courses in England;

After the enforced closure of the Langton Wold track in 1862, racing (National Hunt racing/Steeplechasing) took place at Orchard Fields 1867-70. National Hunt racing was revived once more after 1882 at Highfield, adjoining William l'Anson's training grounds, close to the Beverley Road in Norton. Meets were held every year until 1903 when l'Anson extended his training grounds onto the racecourse site.

John Scott dominated the sport between 1832 and 1862, winning nearly every classic. His stables were at Whitewall. When William l'Anson's Blink Bonnie won the Epsom Derby in 1857 "Malton church bells rang...and the pubs stayed open all night.

MAP NOT TO SCALE

1. Leave Norton College and enter Langton Road, turn left and continue up the road via footpath.
2. Cross the road and enter Bridle path, follow the path which will bring you to Beverley road B1248
